

# NEUROLINE

Reusable  
Cranial Perforator  
with Hudson End

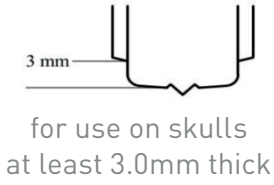

## ADVANTAGES

- Extra safe operation
- Bone pad for protection of dura
- Ideal geometry for high cutting efficiency
- Soft release mechanism
- Applicability for even or uneven surfaces
- Controlled drill tip
- Restart at any time
- Easy to assemble
- Easy to clean

# NEUROLINE

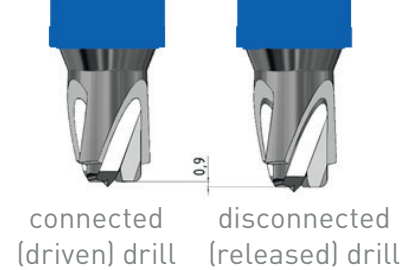

# Reusable Cranial Perforator with Hudson End

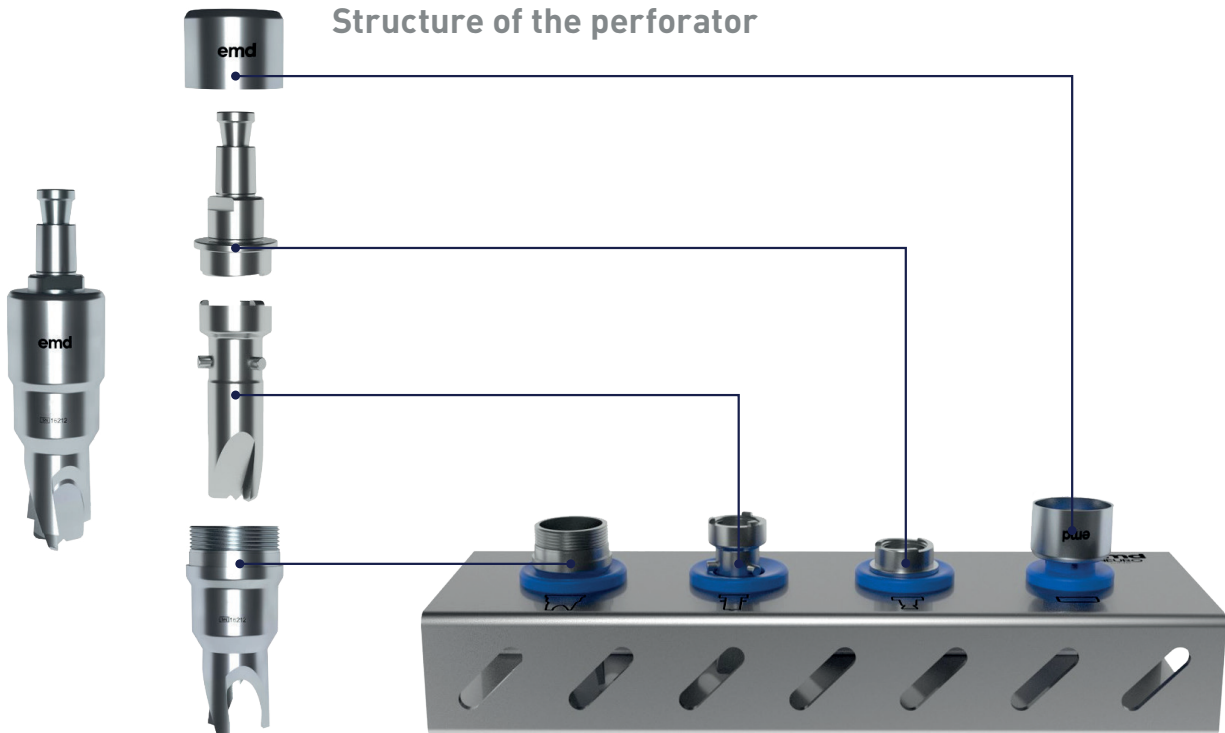

Bone pad for extra protection of dura

0.9mm limit of release displacement

## Structure of the perforator

Perforator holder for storage and sterilisation

## FEATURES

- Integrated safety release mechanism with new technology
- 100% quality control
- Coupling with universal Hudson fitting for trepan adapter
- Autoclaveable at 134°C

## REFERENCES

- International Patent Pending No. EP16185505.1
- Quality management system acc. to EN ISO 13485:2012+AC:2012
- Made in Hungary (EU)

### NeuroLine reusable cranial perforator

Order code	NLM-11/14-3.0	NLM-7/11-3.0	NLM-6/9-3.0
∅ Inner [mm]	11	7	6
∅ Outer [mm]	14	11	9
Application	for use on skulls at least 3.0mm thick		

### Perforator holder for NLM reusable cranial perforator series

Order number	NLM-S-11/14	NLM-S-7/11	NLM-S-6/9
